**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Nielsen, U.S. Patent # 6,768,779 B1.

Figs. 8-10 disclose circuits comprising: a half bridge system (Power switch) with switches (Kp); a switching-timing correction circuit (Correction Unit) to which an input signal (Vr) and an output signal of the switches (Vp) is applied; wherein the switching-timing correction circuit corrects switching timing errors of the switches on the basis of pulse- timing errors of the input signal of the switches and the output signal of the switches (see spec. col. 4, line 24 - col. 7, line 5).
